**Bio:** I'm an art director with 12 years of experience in the advertising industry. I've held interactive and traditional art director roles both at start up and established international agencies, working on accounts such as Audi, Coca-Cola, HP, Microsoft, T-Mobile and Visa.

Aside from advertising my main interests include painting, traveling and ideas for sustainable living. My most recent international art project was concepting and painting a large paint by numbers mural for a children's art class in Nicaragua.
